### **Data Privacy Awareness.**

January 2026 brings Data Privacy Week (January 26–30), with this year's powerful theme: "Take control of your data".

Every click, purchase, search, and app interaction adds to your digital footprint — often more than we realize. The good news? You can reclaim control.

Quick, effective steps to boost your privacy this month:

- Audit & update privacy settings on your key apps, social media, and devices
- Enable two-factor authentication (2FA) everywhere — and use a password manager for strong, unique passwords

- Delete or deactivate old/unused accounts that still hold your data
- Opt out of data selling/sharing where possible (look for Global Privacy Control options in your browser)
- Be mindful of what you share with AI tools and voice assistants

Your data belongs to you. Small, consistent actions build real protection in an increasingly connected world. Take charge today — your privacy is worth it!

## Technology

### Managed IT Services.

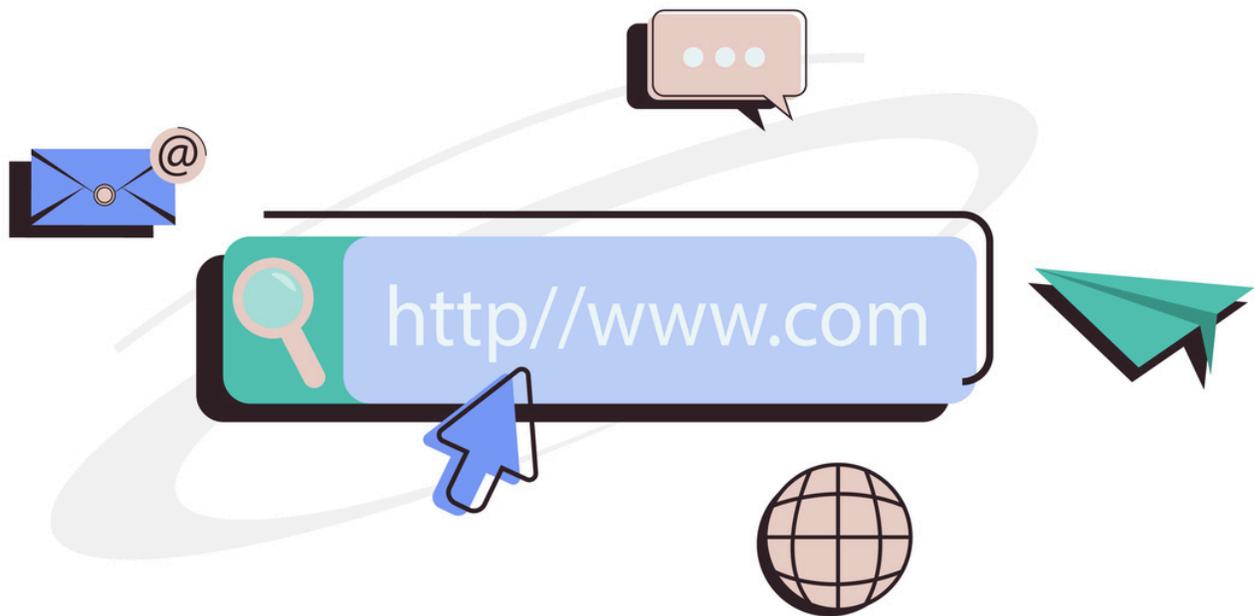

Say goodbye to last year's IT headaches and hello to a smarter, faster, more secure 2026 with C Three Business Consultants!

Our experts assess your needs, upgrade hardware, optimize workflows, and deliver seamless cloud integration, backups, monitoring—and our full Managed IT Services—to make this your best business year yet.

With Data Privacy Week (Jan 26–30, 2026) reminding us all to take charge of our data, our Managed IT Services build privacy right in: strong encryption, proactive threat detection, access controls, and help staying compliant with GDPR, CCPA, and more—protecting your business and customer data without the hassle.

Ready? Sign up today for a no-obligation consultation [on our website](#). Let us craft a tailored plan that drives growth, outpaces competitors, and safeguards what matters most: your data.

## Business

## Build Your Brand!

Make this the year your business stands out with a professional, cohesive brand identity that screams credibility. Start with the basics: a custom domain and branded email addresses (think [info@yourbusiness.com](mailto:info@yourbusiness.com) instead of [yourbusiness@gmail.com](mailto:yourbusiness@gmail.com)).

Not only does this polished look build instant trust with clients and partners, but it also boosts data privacy and security. With a custom domain, you gain greater control over your email infrastructure — enabling stronger encryption, advanced authentication (like SPF, DKIM, DMARC), better compliance with regulations (GDPR, CCPA, etc.), and reduced risks from generic providers that may scan or share data.

At C Three Business Consultants, we make it effortless:

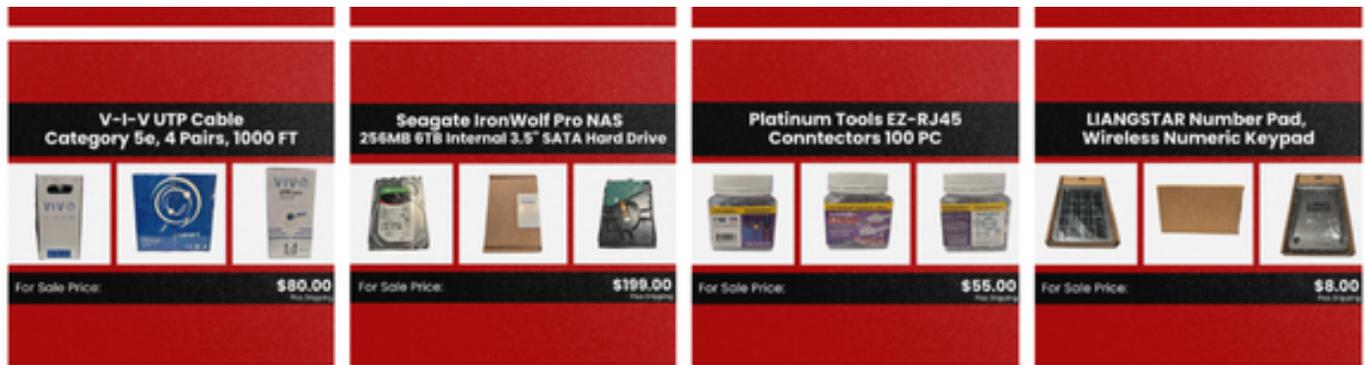

- Secure domain registration and setup
- Professional email configuration with top-tier security features
- Seamless migration from old accounts
- Guidance to keep your communications private and protected

Your brand deserves to shine — and your data deserves protection. Let us help you take charge!

## Did You Know?

### Women Empowering Women (WEW)

Did you know that C Three Business Consultants CEO Amy Yan leads the Women Empowering Women (WEW) West County, Missouri chapter?

Founded in 2013, WEW began locally and has grown into a national networking organization with chapters across states like Missouri and Illinois, offering both in-person and virtual meetings.

On the third Thursday of each month, Amy hosts a free Luncheon where women connect, support one another, enjoy lunch (pay for your own), and hear from an inspiring guest speaker sharing their story. Registration is free—just come ready to network!

Find a chapter near you (or virtual options) at <https://wewnational.com/>. Join us in empowering women everywhere!
